INFORMATION ON THE FUND (CONT'D)

Selected Performance Benchmark for PeEMMF

The benchmark of the Fund is a composite benchmark index comprising:

Percentage	Index
90%	Public Bank 1-Month FDR
10%	Public Bank Savings Rate – ACE Account

This composite benchmark index is an appropriate performance benchmark for PeEMMF as it is reflective of the Fund's investments in short duration instruments.

The performance of the Fund and its benchmark is available on Public Mutual's website at www.publicmutual.com.my.

Investment in the Fund is not the same as placement in a deposit with a financial institution. There are risks involved and investors should rely on their own evaluation to assess the merits and risks when investing in the Fund.

1.2 RISK FACTORS

General Risks

1. **Market risk:** Market risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political and/or other factors, which will result in a decline in the Fund's NAV.
2. **Liquidity risk:** Liquidity risk refers to the ease of liquidating an asset depending on the asset's volume traded in the market. If the Fund holds assets that are illiquid, or are difficult to dispose of, the value of the Fund will be negatively affected when it has to sell such assets at unfavourable prices.
3. **Manager risk:** This risk refers to the day-to-day management of the Fund by the fund manager which will impact the performance of the Fund. For example, investment decisions undertaken by the fund manager pertaining to asset allocation which may not be in line with market movements, or non-conformance with regulations and internal policies and procedures, may adversely affect the performance of the Fund.
4. **Loan financing risk:** This risk occurs when investors take a loan/financing to finance their investment. The inherent risk of investing with borrowed money includes investors being unable to service the loan repayments. In the event units are used as collateral, an investor may be required to top-up the investors' existing instalment if the prices of units fall below a certain level due to market conditions. Failing which, the units may be sold at a lower NAV per unit as compared to the NAV per unit at the point of purchase towards settling the loan.

The Manager does not encourage the practice of loan financing in the purchase of unit trust funds.

Specific Risks

1. **Interest rate risk:** Interest rate risk refers to the impact of interest rate changes on the valuation of fixed income securities and liquid assets. When interest rates rise, fixed income securities prices generally decline and this may lower the market value of the Fund's investment in fixed income securities. The reverse applies when interest rates fall. The returns of the Fund's investments in liquid assets move in tandem with interest rates. A decline in interest rates will lower the returns of the Fund's investments in liquid assets. For example, when interest rates fall, deposit placements would be reinvested at lower interest rates and subsequently yield lower returns to the Fund.
2. **Credit risk:** Credit risk relates to the creditworthiness of the issuer of the securities or liquid assets which is dependent on the issuer's ability to make timely payments of interest and/or principal. In the event that the issuer of a security or liquid assets defaults in the payment of interest and/or principal, the value of the Fund may be adversely affected. In addition to rated bonds, the Fund may also invest in unrated bonds which are not rated by external rating agencies.

Risk Management Strategies

Essentially, the Fund has been structured such that it is confined to instruments of short tenure to maturity in order to minimise the impact of fluctuations in interest rates on the performance of the Fund.

Money market instruments invested by the Fund are issued by licensed financial institutions with investment grade rating. Rated fixed income securities must have a minimum credit rating of BBB for bonds and P1 for commercial papers at the point of purchase. The Fund's investments in unrated fixed income securities are monitored and assessed on a regular basis.

The Manager will take the necessary steps to reduce its exposure to the money market instruments with a particular financial institution or fixed income security in the event there is any material deterioration in credit quality. The Manager has the discretion to take into consideration all relevant factors that affect the fair value of the investment via an internal credit assessment process before deciding on the manner and time frame of the liquidation.

1.3 PERMITTED INVESTMENTS

The Manager has absolute discretion, subject to the Deed, the investment policy of the Fund and the requirements of the SC and other regulatory body, as to how the assets of the Fund are invested.

The Fund may invest in the following:

- i. Deposits and money market instruments with licensed domestic and foreign financial institutions;
- ii. Malaysian Government Securities, Treasury Bills, Bank Negara Monetary Notes, Government Investment Issues and other Government approved and/or guaranteed securities;
- iii. Listed fixed income securities traded in Eligible Markets;
- iv. Unlisted fixed income securities traded in Eligible Markets;
- v. Units of other collective investment schemes; and
- vi. Any other form of investments which is in line with the objective of the Fund as may be agreed upon by the Manager and the trustee from time to time.

The Fund may participate in lending of securities within the meaning of the SC Guidelines on Securities Borrowing and Lending when permitted by the SC and other relevant authorities.

1.4 INVESTMENT RESTRICTIONS

The Fund is subject to the following investment restrictions in the course of execution of its investment policies and strategies:

(i) Investment Spread Limits

Investment	Limits (% of Fund's NAV)
Value of investments in debentures and money market instruments issued by any single issuer	<p style="text-align: center;">≤ 20%</p> <p><i>Note: This limit may be increased to 30% if the debentures are rated by any domestic or global rating agency to be of the best quality and offer highest safety for timely payment of interest and principal.</i></p>
Value of placement in deposits with any single institution	≤ 20%

INFORMATION ON THE FUND (CONT'D)

(ii) Investment Concentration Limits

Investment	Limits

Value of investment in permitted investments which have a remaining maturity of not more than 365 days	≥ 90%
Value of investment in permitted investments which have a remaining maturity of more than 365 days but fewer than 732 days	≤ 10%
PeEMMF may invest in unrated and rated fixed income securities. The minimum credit rating for rated fixed income securities at the point of purchase is as below: (i) Long tenure instruments (ii) Short tenure instruments	BBB P1 (As rated by RAM or equivalent rating by other recognised rating agencies)

Note:

Permitted investments refer to debentures, money market instruments and placement of deposits with licensed financial institutions.

The above limits and restrictions shall be complied with at all times based on the most up-to-date value of the Fund, and the value of its investments and instruments. However, a 5 per cent allowance in excess of any limits or restrictions may be permitted where the limit or restriction is breached through the appreciation or depreciation in value of the Fund's investments or instruments, or as a result of redemption of units or payment made from the Fund. The Manager should, within a reasonable period of not more than 3 months from the date of the breach, take all necessary steps and actions to rectify the breach.

Such limits and restrictions, however, do not apply to securities that are issued or guaranteed by the Government or Bank Negara Malaysia.

1.5 VALUATION OF PERMITTED INVESTMENTS

The permitted investments of the Fund are fairly valued based on the following valuation methods:

Listed and unlisted fixed income securities – for listed fixed income securities, the last traded prices quoted on a recognised exchange will be used. If no market price is available or valuation based on market price does not represent the fair value of the fixed income securities, the fixed income securities will be valued at fair value, as determined in good faith by the Manager, based on the methods or bases approved by the trustee after appropriate technical consultation.

In the case of unlisted fixed income securities denominated in RM, valuations are carried out on a daily basis using fair value prices quoted by a Bond Pricing Agency (BPA) registered with the SC. If the Manager is of the view that the price quoted by the BPA for a specific fixed income security differs from the 'market price' by more than 20 basis points, the Manager may use the 'market price' provided that the Manager adheres to the requirements stipulated by the SC. Market price for fixed income securities are derived from market quotations obtained from the panel of at least three active financial institutions that are governed by the Financial Services Act 2013 and/or Islamic Financial Services Act 2013 (FSA/IFSA). Other unlisted fixed income securities which include foreign unlisted fixed income securities are valued daily based on fair value by reference to the average indicative yield quoted by at least three independent and established institutions.

Commercial papers – commercial papers are valued at purchase yields with interest accrued daily as they are generally held to maturity. The valuation of commercial papers will be monitored against market value on a daily basis and should the market value be lower by more than 5%, the commercial papers will be valued at the market value for that particular day.

Money market instruments – money market instruments which include negotiable instrument of deposits are valued at market yields based on the remaining days to maturity.

Deposits – the value of such investments shall be determined on a daily basis by reference to their nominal values and the accrued interest thereon for the relevant period.

Units in other collective investment schemes – the last published repurchase price per unit or if not available, the units will be valued at fair value as determined in good faith by the Manager, based on methods or bases approved by the trustee after appropriate technical consultation.

1.6 CROSS TRADE POLICY

Dear Sirs

Re: Taxation of the Fund and Unit Holders

This letter has been prepared for inclusion in this First Prospectus of Public e-Enhanced Money Market Fund in connection with the offer of units in the Public e-Enhanced Money Market Fund (“the Fund”).

Taxation of the Fund

Income Tax

The Fund is a unit trust for Malaysian tax purposes. The taxation of the Fund is therefore governed principally by Sections 61 and 63B of the Income Tax Act, 1967 (“the Act”).

Subject to certain exemptions, the income of the Fund in respect of investment income derived from or accruing in Malaysia are liable to income tax at the rate of 24% effective Year of Assessment (“YA”) 2016.

Gains from the realisation of investments by the Fund will not be subject to income tax in Malaysia. However, such gains may be subject to tax in the country from which it is derived.

Interest income earned by the Fund from the following are exempt from tax:-

- any savings certificates issued by the Government; or
- securities or bonds issued or guaranteed by the Government; or
- debentures or sukuk, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission; or
- Bon Simpanan Malaysia issued by the Central Bank of Malaysia; or
- a bank or financial institution licensed under the Financial Services Act 2013 or Islamic Financial Services Act 2013^{N1}; or
- any development financial institution regulated under the Development Financial Institutions Act 2002^{N1}; or
- sukuk originating from Malaysia, other than convertible loan stocks, issued in any currency other than Ringgit and approved or authorized by, or lodged with, the Securities Commission, or approved by the Labuan Financial Services Authority^{N2}.

The Fund may receive dividends, interest and other income from investments outside Malaysia. Income derived from sources outside Malaysia and received in Malaysia by a resident unit trust is exempt from Malaysian income tax. However, such income may be subject to tax in the country from which it is derived.

Discounts earned by the Fund from the following are also exempt from tax:-

- securities or bonds issued or guaranteed by the Government; or
- debentures or sukuk, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission; or
- Bon Simpanan Malaysia issued by the Central Bank of Malaysia.

Tax deductions in respect of the Fund’s expenses such as manager’s remuneration, expenses on maintenance of

^{N1} Effective from YA 2017, in the case of a wholesale fund which is a money market fund, the exemption shall only apply to a wholesale fund which complies with the criteria as set out in the relevant guidelines of the Securities Commission. It is proposed in the 2019 Budget that the tax exemption for interest earned on wholesale money market funds to be abolished from 1 January 2019.

^{N2} Effective from YA 2017, income tax exemption shall not apply to interest paid or credited to a company in the same group, licensed banks and prescribed development financial institutions.

register of unit holders, share registration expenses, secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage ("permitted expenses") are allowed based on a prescribed formula subject to a minimum of 10% and a maximum of 25% of the total permitted expenses.

Single tier Malaysian dividends received by the Fund are exempt from tax and expenses in relation to such dividend income are disregarded.

Real Property Gains Tax ("RPGT")

Gains on disposal of investments by the Fund will not be subject to income tax in Malaysia. However, such gains may be subject to RPGT in Malaysia, if the gains are derived from sale of Malaysian real properties and shares in Malaysian real property companies (as defined). Such gains would be subject to RPGT at the applicable rate depending on the holding period of the chargeable assets.

Sales Tax and Service Tax

The Goods and Services Tax ("GST") is replaced by Sales Tax and Service Tax effective from 1 September 2018.

Under the Sales Tax Act 2018, Service Tax Act 2018 and the subsidiary legislations, the sales tax rate for taxable goods is 5% or 10% while the service tax rate for taxable services is generally 6%. There are certain goods which are exempted from sales tax.

The issue, holding or redemption of any unit under a trust fund does not fall within the list of taxable services under the First Schedule of the Service Tax Regulations 2018 and hence, is not subject to service tax. The investment activities of the Fund such as buying and selling of securities and deposits in financial institutions are also not subject to service tax. As such, if the Fund is only deriving income from such activities, the Fund is not liable to be registered for service tax.

However, certain expenses incurred by the Fund such as legal fees, consultancy fees and management fees may be subject to service tax at 6%. For management fees, this specifically excludes fees charged by any person who is licensed or registered with the Securities Commission for carrying out the regulated activity of fund management under the Capital Markets and Services Act 2007. The service tax incurred by the Fund is a cost to the Fund and is not recoverable, unlike the GST input tax which is claimable under the GST regime.

Taxation of Unit Holders

Income Tax

Unit holders are taxed on an amount equivalent to their share of the total taxable income of the Fund, to the extent that this is distributed to them. The income distribution from the Fund may carry with it applicable tax credits proportionate to each unit holder's share of the total taxable income in respect of the tax paid by the Fund. Unit holders will be entitled to utilise the tax credit as a set off against the tax payable by them. Any excess over their tax liability will be refunded to the unit holders. No other withholding tax will be imposed on the income distribution of the Fund.

Corporate unit holders, resident or non resident in Malaysia, would be taxed at the corporate tax rate of 24% (effective from YA 2016) on distributions of income from the Fund to the extent of an amount equivalent to their share of the total taxable income of the Fund. Corporate unit holders in Malaysia with paid-up capital in the form of ordinary shares of RM2.5 million and below will be subject to a tax rate of 18% (proposed in the 2019 Budget to be reduced to 17% effective from YA 2019) on chargeable income of up to RM500,000. For chargeable income in excess of RM500,000, the tax rate of 24% is still applicable.

However, the said tax rate of 18% (proposed in the 2019 Budget to be reduced to 17% effective from YA 2019) on chargeable income of up to RM500,000 would not apply if more than 50% of the paid up capital in respect of ordinary shares of that corporate unit holder is directly or indirectly owned by a related company which has a paid up capital exceeding RM2.5 million in respect of ordinary shares, or vice versa, or more than 50% of the paid up capital in respect of ordinary shares of both companies are directly or indirectly owned by another company.

Pursuant to Income Tax (Exemption) (No. 2) Order 2017 [P.U.(A) 117], a tax exemption equivalent to a reduction in the prevailing corporate tax rate from 1% to 4% will be effectively given for YA 2017 and YA 2018 based on percentage increase in the chargeable business income for the relevant YA as compared to the immediately preceding YA, subject to meeting the stipulated conditions.

Individuals and other non-corporate unit holders who are resident in Malaysia will be subject to income tax at scale rates. The scale tax rates range from 0% to 28% with effect from YA 2016.

Individuals and other non-corporate unit holders who are not resident in Malaysia, for tax purposes, will be subject to Malaysian income tax at the rate of 28% with effect from YA 2016. Non resident unit holders may also be subject to tax in their respective jurisdictions and depending on the provisions of the relevant tax legislation and any double tax treaties with Malaysia, the Malaysian tax suffered may be creditable in the foreign tax jurisdictions.

The distribution of single-tier Malaysian dividends and tax exempt income by the Fund will not be subject to tax in the hands of the unit holders in Malaysia. Distribution of foreign income will also be exempt in the hands of the unit holders.

Units split by the Fund will be exempt from tax in Malaysia in the hands of the unit holders.

Any gains realised by the unit holders (other than financial institutions, insurance companies and those dealing in securities) from the transfers or redemptions of the unit are generally treated as capital gains which are not subject to income tax in Malaysia. However, certain unit holders may be subject to income tax in Malaysia on such gains, due to specific circumstances of the unit holders.

Sales Tax and Service Tax

GST is replaced by Sales Tax and Service Tax effective from 1 September 2018.

Only taxable services listed in the First Schedule of the Service Tax Regulations 2018 are subject to service tax, which exclude investment income or gains.

However, legal fees, consultancy fees and management fees may be subject to service tax at 6%. For management fees, this specifically excludes fees charged by any person who is licensed or registered with the Securities Commission for carrying out the regulated activity of fund management under the Capital Markets and Services Act 2007.

The tax position is based on our understanding and interpretation of the Malaysian tax legislations and proposals as they stand at present. All prospective investors should not treat the contents of this letter as advice relating to taxation matters and are advised to consult their own professional advisers concerning their respective investments.

Yours faithfully
