The Morningstar Rating™ is a quantitative assessment of a fund's past performance, incorporating fee, return and risk, measured from one to five stars. It uses focused comparison groups – the Morningstar Categories – to measure the fund's risk-adjusted performance and it places stronger emphasis on downside variations. The Top 10% of funds in a category will receive five stars, the next 22.5% will receive four stars, the middle 35% will receive three stars, the next 22.5% will receive two stars and the bottom 10% will receive one star.
