PUBLIC MUTUAL
WHOLLY-OWNED SUBSIDIARY OF PUBLIC BANK

FOREWORD

Public Mutual Education Planning Preparing for Your Children's Tertiary Education

The founding father of the United States of America, Benjamin Franklin famously said, "An investment in knowledge pays the best interest." True enough, education is not only important for personal development, but also contributes to the overall human development. Teachers, engineers, doctors, accountants, social scientists and a myriad of professionals are products of education.

As parents, you would surely want your children to be among those who contribute to the development of a civilised society. And to do this, you have to be prepared to provide them with quality tertiary education.

Naturally, you would want your children to study in the best universities, but, have you considered the costs that come with it? How about inflation? Did you know that most countries' education inflation rate is higher than the general inflation rate? This means the cost of tertiary education fees rise faster than the average prices of goods and services!

To help you prepare for your children's future education, Public Mutual has compiled information on estimated tuition fees and living expenses in several local and foreign universities in this booklet. You can use the information to estimate your children's future education cost and gauge how much you will need to save or invest to cover the cost.

We recommend you to pair this booklet with our Education Planning Calculator available in our corporate website **www.publicmutual.com.my** to analyse your children's education needs, determine the amount of savings needed, gauge your existing savings and define probable funding options.

It is our hope that all parents who refer to this handy guide will have a clearer picture of the steps to be taken to provide your children with an investment that no one can take away – a tertiary education.

Happy Planning!

EDUCATION PLANNING CHECKLIST

STEP 1: SET AN EDUCATION GOAL

- What type of course will my child be pursuing?
- Which country & university/ college would be the right match?
- What is my family's financial strength?
- What would be the estimated total costs (tuition fee & living cost) by the time my child is ready for tertiary studies?
- How much can I afford to put aside now?

STEP 2: CREATE YOUR EDUCATION PLAN

- Discuss your plan & goal with your unit trust consultant.
- Understand your risk tolerance & the assumptions considered, e.g. inflation, rate of return, etc.
- Identify any other investments earmarked for the education plan, e.g. unit trust funds.

STEP 3: GET STARTED WITH THE EDUCATION PLAN

- Open a unit trust account & select suitable funds.
- Start a lump sum investment & complement with regular monthly savings through Direct Debit Authorisation (DDA).

STEP 4: REVIEW & ADJUST THE EDUCATION PLAN

- Review your plan annually with your unit trust consultant.
- Make adjustments based on any life-changing events.
- Monitor the foreign exchange rate if your plan is for an education abroad.

Visit our website, www.publicmutual.com.my for more information on your children's education needs.

START EARLY AND INVEST REGULARLY

In today’s competitive society, it is undeniable that education is the key to one’s future. It is also one of the most important investments you can make for your children. Unfortunately, the cost of tertiary education has risen sharply over the past decade. The escalating cost can become a huge burden if you fail to start saving early.

Assuming you plan to accumulate RM100,000 for your child’s education fund, below is an illustration of the amount you will need to set aside, depending on your child’s current age, in order to achieve the targeted amount:

Monthly Investment* (RM)	Years to University	Education Fund at the Age of 18 (RM)
257	18	RM100,000
282	17	
342	15	
423	13	
534	11	
1,426	5	

If you invest RM500 monthly, below is an illustration of the estimated amount available when your child is ready to start tertiary education:

Age of Child	Years to University	Estimated Amount at the Age of 18* (RM)
Newborn	18	194,645
1 year old	17	177,499
3 years old	15	146,136
5 years old	13	118,312
7 years old (Primary School)	11	93,627
13 years old (Secondary School)	5	35,059

* Assuming that the rate of return is 6%

ESTIMATED TUITION FEES & LIVING COSTS BY COUNTRY

The tuition fees & living costs vary from country to country. The table below outlines the estimated average annual tuition fees & living costs for international students in selected country:

Country	Average Annual Tuition Fees*	Average Annual Living Costs	Education Inflation**

Canada	CAD 16,816 – CAD53,290	CAD15,000 – CAD30,000	2.4%
Malaysia	RM13,083 – RM37,100	RM21,600 – RM36,000	3.0%
New Zealand	NZD27,000 – NZD37,141	NZD15,000 – NZD18,000	2.0%
Singapore	SGD32,250 – SGD44,510	SGD9,000 – SGD24,000	3.9%
Taiwan	TWD91,702 – TWD114,960	TWD96,000 – TWD180,000	1.5%
United Kingdom	GBP18,500 – GBP30,678	GBP7,000 – GBP10,000	3.4%
USA	USD51,870 – USD63,573	USD12,000 – USD18,000	5.1%

* Non medical courses.

* The degree of Master of Arts (MA) is an undergraduate Honours degree, awarded by the ancient universities in Scotland and the UK including Aberdeen, Dundee, Edinburgh, Glasgow, St Andrews, Cambridge and Oxford. At other universities in Scotland and the UK, undergraduate degrees in the arts, liberal arts, humanities or social sciences are awarded as Bachelor of Arts (BA). (Source: <https://www.hw.ac.uk/malaysia.htm>)

PRIVATE UNIVERSITIES, UNIVERSITY COLLEGES & COLLEGES (Offered by Private Higher Educational Institutions)

Private universities or university colleges are private higher educational institutions (PHEIs). All the private institutes of higher learning come under the Private Higher Educational Institutions Act 1996. This act allows private universities and university colleges to provide tertiary education and to confer their own degrees.

The '3+0' degrees are overseas degree programmes allowed by foreign partner universities to Malaysian PHEIs to conduct an entire degree programme in Malaysia. The syllabi, entry requirements, and examinations are determined by the foreign university. The foreign partner university will then award the degree qualification.

The general entry requirement for admission into a Bachelor's degree programme is a pre-university qualification such as STPM, A-Level, SAM, etc.

The following private universities, university colleges & colleges are included in this guide, in no particular order, for the benefit of our users:-

- 1 Asia Pacific University of Innovation & Technology (APU)
