CHAMPION PROFILE

Nur Arissa binti Halim earned the title of Top New UTC by bringing in qualified personal sales of RM8,536,641. Truly honoured and humbled by this achievement, she believes it reflects the trust placed in her by her investors, as well as the consistent support she receives from her team. This milestone motivates her to continue growing, improving and delivering even greater value to the people she serves.

“The recipe for success in the unit trust industry lies in consistency – consistent prospecting, diligent follow-ups, and a continuous thirst for knowledge. Most importantly, I focus on understanding my investors’ needs and building long-term relationships with them, rather than chasing quick results.

I also embrace rejection as part of the journey, viewing it as feedback rather than a setback. For those who aspire to succeed in the industry, always remember that consistency, patience and focus are crucial. Above all, trust the process and never stop improving yourself.”
