KEY RISKS

What are the key risks associated with this product?

| | |
|---|---|
| Market risk | <p>Market risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political and/or other factors, which will result in a decline in the fund's NAV.</p> |
| Specific security risk | <p>Prices of a particular security may fluctuate in response to the circumstances affecting individual companies. As such, adverse price movements of a particular security invested by the fund may adversely affect the fund's NAV and unit price.</p> |
| Liquidity risk | <p>Liquidity risk refers to the ease of liquidating an asset depending on the asset's volume traded in the market. If the fund holds assets that are illiquid, or are difficult to dispose of, the value of the fund will be negatively affected when it has to sell such assets at unfavourable prices.</p> |
| ESG investment risk | <p>The fund invests in ESG qualified Shariah-compliant securities. During the monthly review undertaken by the Manager, a security currently held by the fund may be reclassified as non ESG compliant and may impact the ESG considerations of the fund. If this occurs, the Manager will take the necessary steps to dispose its holdings of the security as disclosed in the fund's investment approach. The non ESG compliant securities will be disposed, and reinvestments will be made within an appropriate timeframe not exceeding 3 months from the date of breach to ensure, at least two thirds (2/3) of the fund's NAV is invested in Shariah-compliant instruments that are subject to ESG considerations.</p> |

If this occurs, the Manager will take the necessary steps to dispose such shares. There may be opportunity loss to the fund due to the fund not being allowed to retain the excess capital gains derived from the disposal of the Shariah non-compliant shares. The value of the fund may also be adversely affected in the event of a disposal of Shariah non-compliant shares at a price lower than the investment cost.</p> |
